More Than Productivity

PULSE PISTOL BATTERY

MULTIPLE PATENTS SOLUTION

Patented gearbox design and motor/power control algorithm for best productivity & operator comfort

EMBEDDED DISPLAY

For tightening results like torque, angle, batch count, pulses

4 COLORS REPORTING LED

To maximize the real-time feedback

SECURED COMMUNICATION

For BLRTC models

POWERED BY LITHIUM-ION TECHNOLOGY

Compatible with both 18V and 36V battery

TRANSDUCER TECHNOLOGY

Measure the torque directly, for better accuracy

MECHANICAL GEARBOX

Instead of oil pulse unit, to decrease maintenance cost

4 LIGHTNING LEDs

To illuminate the application, and to give real-time feedback directly on the parts

RFID

For contactless and easy pairing

2 BATTERY POSITIONS

For better access, and better tool balance

PULSE ANGLE HEAD BATTERY

TRANSDUCER TECHNOLOGY

Measure the torque directly, for better accuracy

MULTIPLE PATENTS SOLUTION

Patented gearbox design and motor/power control algorithm for best productivity & operator comfort

EMBEDDED DISPLAY

For tightening results like torque, angle, batch count, pulses

360° REPORTING LEDS

To maximize the real-time feedback

SECURED COMMUNICATION

For EABCLRT models

WIDE TORQUE RANGE

40 to 110 N.m with one tool only

MECHANICAL GEARBOX

Instead of oil pulse unit, to decrease maintenance cost

RFID

For contactless and easy pairing

2 BATTERY POSITIONS

For better access, and better tool balance

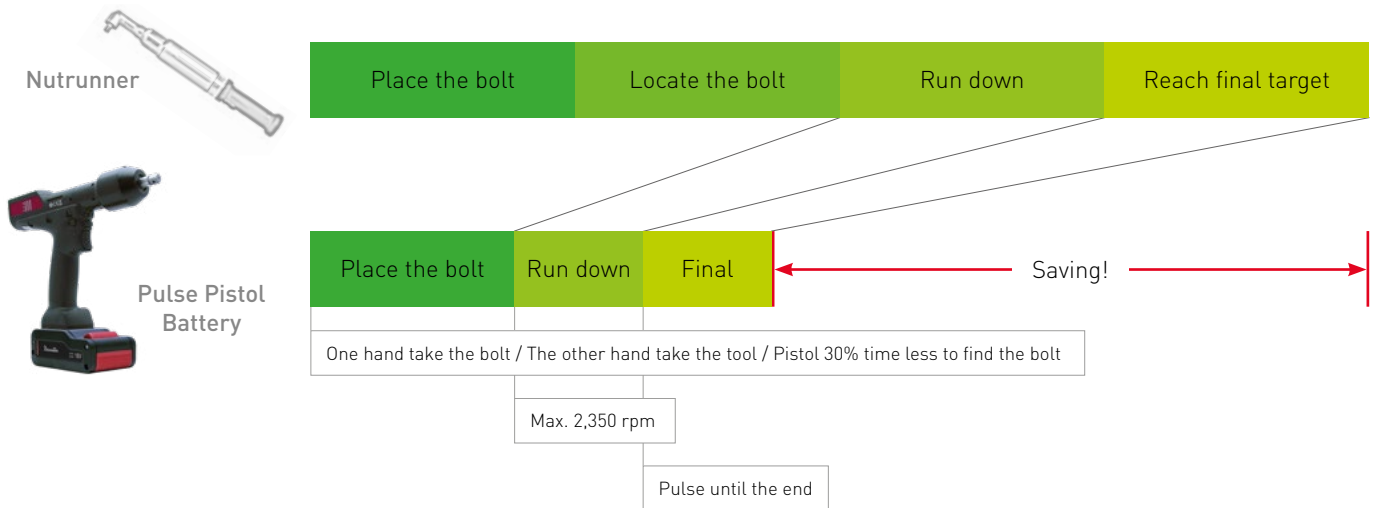

POWERED BY LITHIUM-ION TECHNOLOGY

36V battery

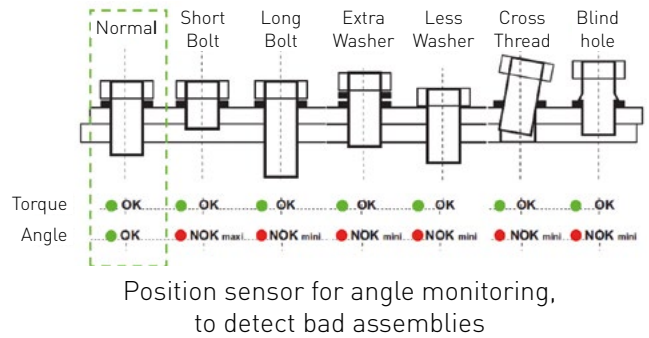

BOOST YOUR PRODUCTIVITY

By reducing **cycle time**

By improving **joint quality** because only good parts are counted!

By improving **real-time feedback**

- Tightening result on the OLED display**: Shows a handheld device with an OLED display showing '25.16 Nm'.
- Full programmable Buzzer for OK/NOK & batch OK**: Shows a handheld device with a red buzzer icon.
- Shed light of OK/NOK directly on the application**: Shows a handheld device with a green light indicator.
- Real-time Wi-Fi signal strength check**: Shows a handheld device with a Wi-Fi signal strength indicator showing '-34 dBm'.
- 4 color LEDs for tightening / tool status**: Shows a handheld device with four colored LEDs (red, yellow, green, blue).

BOOST YOUR FLEXIBILITY

Patented motor control algorithm, operator can literally hold the tool with 2 fingers no need for reaction arm

Above pulse threshold, the tool will switch automatically to pulse mode

No need to attach the tool to a reaction arm

Cordless, free of cable management and save time on line rebalancing

Free of cable management

Save time on line rebalancing thanks to easy pairing

BOOST YOUR UPTIME

Boost the uptime of the operator with ergonomic design

balance design anti-slippery
 ergonomics low reaction safety
 effortless
 light trigger
 weight
 slim handle
 easy access
 2 battery positions

Boost the uptime of the tool with longer calibration & preventive maintenance intervals

Calibration

Preventive maintenance interval 500 000cycles

HOW TO MEET YOUR QUALITY STANDARD OVER TIME?

To maintain your quality standards over time, it's critical to perform regular tool checks to ensure that all equipment is operating correctly and efficiently. In addition, performing application checks helps identify and address potential problems early on, maintaining the integrity and reliability of your processes.

INTERESTED IN CHECKING YOUR APPLICATION JOINT ?

WITH THE Q-SHIELD, YOU CAN:

- Measure joint relaxation with Continuous & Pulse tools (Residual Torque/Angle Automatic)
- Obtain assistance to determine tightening strategies before production (Torque/Angle)
- Evaluate the joint set up at first installation for angle strategy (Torque/Angle)

QUALITY PERMITS TO AVOID

- RECALLS
- REWORK
- REPUTATION LOSSES
- MAINTENANCE PLAN NOT FOLLOWED
- PRODUCT SCRAP

**“QUALITY IS THE SILENT
AMBASSADOR OF YOUR FACTORY”**

PULSE PISTOL CABLE

2 CABLE POSITIONS

Suitable for both vertical and horizontal applications

MULTI POSITION SUSPENSION BAIL

To reduce the operator fatigue

360° REPORTING LEDs

To maximize the real-time feedback

MULTIPLE PATENTS SOLUTION

Patented gearbox design and motor/
power control algorithm for best
productivity & operator comfort

MECHANICAL GEARBOX

Instead of oil pulse unit, to decrease maintenance cost

TRANSDUCER TECHNOLOGY

Measure the torque directly, for better accuracy

ERGONOMIC HANDLE

To provide better grip

BOOST YOUR PRODUCTIVITY

- ▶ BY REDUCING CYCLE TIME
- ▶ BY IMPROVING JOINT QUALITY
- ▶ BY PROVIDING PROCESS QUALITY

BOOST YOUR FLEXIBILITY

- ▶ FREE OF REACTION ARM
- ▶ REDUCE TOTAL COST OF OWNERSHIP
- ▶ EASY CABLE MANAGEMENT

BOOST YOUR UPTIME

- ▶ BOOST THE UPTIME OF THE OPERATOR
- ▶ BOOST THE UPTIME OF THE TOOL

PULSE SERVICE SOLUTIONS COMMITTED TO OUR CUSTOMERS SUCCESS

MAINTENANCE SOLUTIONS
REDUCE BREAKDOWNS AND
EXTEND TOOL LIFE TO BOOST
COST EFFICIENCY, UPTIME
AND PRODUCTIVITY

Basic Care

A flexible fixed price preventive maintenance program with calibration that includes wear parts and labour.

Smart Care

A fixed price preventive maintenance plan with calibration and repairs included*. The maintenance is optimised according to the tool usage. All wear parts are replaced at the right time.

Peace of mind

Onsite maintenance and production support that includes:
An optimised preventive maintenance plan with calibration and repairs included*. Plus technical support for trouble shooting, optimisation and operator coaching to maximise the efficiency of your tools.

* Except in case of misuse or abuse

INSTALLATION & COMMISSIONING
HIGH PERFORMANCE, RIGHT FROM THE START!

A fast, high quality installation with no delays that ensures tool accuracy and optimum set-up.

PRODUCTION SUPPORT ON-SITE SUPPORT TO HELP BOOST UPTIME AND PRODUCTIVITY

On-site technicians

Our certified technicians are on hand to quickly solve any on-site issues detected or identify process improvement opportunities.

Certification Training

Develop your technicians' knowledge on troubleshooting and assembly technics. Improve the interaction with Desoutter for efficient remote support.

BOOST YOUR UPTIME

- ▶ Preventive Maintenance significantly reduces breakdowns and therefore production stops. Uptime is improved.
- ▶ Our experienced on-site technicians know your applications and are on hand to support your team. This allows early detection and resolution of problems, Your uptime is further improved.

BOOST YOUR PRODUCTIVITY

- ▶ Desoutter on-site technicians will coach and support your teams on how to get the best from your equipment. This helps to reduce errors and rework, boosting productivity and quality.
- ▶ Our on-site technicians will help your team to identify and implement process improvements to help you further boost productivity.

BOOST YOUR MAINTENANCE COST EFFICIENCY

- ▶ Preventive Maintenance decreases breakdowns and extends tool life. This significantly reduces repair and administration costs.

BOOST YOUR FLEXIBILITY

- ▶ All our service solutions can be tailored to your exact needs to ensure maximum flexibility in your production locally or worldwide.

DESOUTTER 4.0

www.desouttertools.com/industry-4-0/desoutter-4-0

More Than Productivity
