

MC / MCL / MC OF - Fixtured electric spindles

User manual

WARNING

EN	WARNING Read all safety warnings (including the ones of the separately provided safety instructions n° 6159931790) and all instructions. Failure to follow the warnings and instructions may result in electric shock, fire and/or serious injury. Save all warnings and instructions for future reference.	14
FR	AVERTISSEMENT Lire l'ensemble des mises en garde de sécurité (y compris celles sur la notice de sécurité n° 6159931790 fournie à part) ainsi que l'ensemble des consignes. Le non-respect des mises en garde et des consignes peut entraîner un choc électrique, un incendie ou des blessures graves. Conserver l'ensemble des mises en garde et consignes pour pouvoir les consulter ultérieurement.	16
ES	ADVERTENCIA Lea todas las advertencias de seguridad (incluyendo las contenidas en las instrucciones de seguridad n° 6159931790 suministradas por separado) y las instrucciones. El incumplimiento de las instrucciones y advertencias de seguridad puede producir descargas eléctricas, incendios y/o lesiones personales graves. Guarde todas las instrucciones y advertencias para futuras consultas.	18
DE	WARNUNG Alle Sicherheitshinweise (einschließlich der separat bereitgestellten Sicherheitsvorschriften Nr. 6159931790) und alle Anweisungen lesen. Eine Nichtbeachtung der Hinweise und Anweisungen kann zu Stromschlägen, Bränden und/oder schweren Personenschäden führen. Bewahren Sie alle Warnhinweise und Anweisungen zur künftigen Verwendung auf.	20

PAP

WARNING

IT	AVVERTENZA Leggere tutti gli avvisi di sicurezza (inclusi quelli indicati sulle istruzioni di sicurezza n. 6159931790 fornite separatamente) e tutte le indicazioni di sicurezza. Il mancato rispetto degli avvisi e delle istruzioni può provocare scosse elettriche, incendi e/o gravi lesioni. Conservare tutti gli avvisi e le istruzioni per consultazioni future.	 22
PT	ALERTA Leia todas as instruções e avisos de segurança (inclusive as que são fornecidas separadamente, n° 6159931790). A falha em seguir os avisos e instruções pode resultar em choque elétrico, incêndio e/ou lesão grave. Guarde todos os alertas e instruções para referência futura.	 24
FI	VAROITUS Lue kaikki turvallisuusvaroitukset (mukaan lukien erikseen painetut turvallisuusohjeet tiedotteessa nro 6159931790) ja kaikki ohjeet. Varoitusten ja ohjeiden noudattamatta jättäminen voi johtaa sähköiskuun, tulipaloon ja/tai vakavaan loukkaantumiseen. Säilytä kaikki varoitukset ja ohjeet myöhempää tarvetta varten.	 26
SV	VARNING Läs alla säkerhetsvarningar (inklusive dem i de de separata, medföljande säkerhetsinstruktionerna nr. 6159931790) och alla instruktioner. Underlåtenhet att följa alla varningar och instruktioner kan leda till en elektrisk stöt, eldsvåda och/eller svåra personskador. Spara alla varningar och instruktioner för framtida bruk.	 28
NO	ADVARSEL Les alle sikkerhetsadvarsler (inkludert de i de separate medfølgende sikkerhetsanvisningene nr. 6159931790) og alle instruksjoner. Om man ikke følger advarslene eller anvisningene, kan det føre til elektrisk støt, brann og/eller alvorlige personskader. Ta vare på alle advarsler og anvisninger for fremtidig bruk.	 30
DA	ADVARSEL Læs alle sikkerhedsadvarsler (også dem i den separate sikkerhedsanvisning nr. 6159931790) og alle anvisninger. Hvis disse advarsler og anvisninger ikke følges, kan det medføre elektrisk stød, brand og/eller alvorlig tilskadekomst. Gem alle advarsler og anvisninger til senere brug.	 32
NL	WAARSCHUWING Lees alle veiligheidswaarschuwingen (inclusief de waarschuwingen die afzonderlijk worden verstrekt in de veiligheidsinstructies met onderdeelnummer 6159931790) en alle overige instructies. Indien u de de waarschuwingen en de instructies niet opvolgt, kan dit leiden tot een elektrische schok, brand en/of ernstig lichamelijk letsel. Bewaar alle waarschuwingen en instructies, zodat u ze op en later tijdstip kunt raadplegen.	 34
EL	ΠΡΟΕΙΔΟΠΟΙΗΣΗ Διαβάστε όλες τις προειδοποιήσεις ασφαλείας (συμπεριλαμβανομένων εκείνων των ξεχωριστά παρεχόμενων οδηγιών ασφαλείας αρ. 6159931790) και όλες τις οδηγίες. Σε περίπτωση που δεν ακολουθήσετε τις προειδοποιήσεις και τις οδηγίες ενδέχεται να προκληθεί ηλεκτροπληξία, πυρκαγιά ή/ και σοβαρός τραυματισμός. Φυλάξτε όλες τις προειδοποιήσεις και τις οδηγίες για να ανατρέξετε μελλοντικά σε αυτές.	 36
ZH	警告 阅读所有安全警告（包括那些单独提供的安全说明 n° 6159931790）和所有说明。未能遵守这些警告和说明可能会导致触电、火灾和/或严重伤害。 妥善保存所有警告和说明，以备将来参考。	 38

**WARNING**

HU	FIGYELEM Olvassa el az összes biztonsági (beleértve a különálló, n° 6159931790 számú biztonsági útmutató utasításait) és az összes használati utasítást. A figyelemztetések és utasítások figyelmen kívül hagyása áramütést, tűzveszélyt és/ vagy súlyos személyi sérülést okozhat. Olvassa el és őrizze meg az összes figyelemztetést és utasítást későbbi hivatkozásra.	 40
LV	BRĪDINĀJUMS Izlasiet visus drošības brīdinājumus (tostarp tos, kas atsevišķi sniegti instrukcijā nr. 6159931790) un visus norādījumus. Neievērojot brīdinājumus un norādījumus, varat izraisīt strāvas triecienu, ugunsgrēku un/vai smagas traumas. Saglabāiet visus brīdinājumus un norādījumus, lai varētu tajos ieskatīties arī turpmāk.	 42
PL	OSTRZEŻENIE Należy przeczytać wszystkie ostrzeżenia dotyczące bezpieczeństwa (łącznie z odrębnymi instrukcjami bezpieczeństwa nr 6159931790) oraz wszystkie instrukcje. Nieprzestrzeganie ostrzeżeń i instrukcji może spowodować porażenie prądem elektrycznym, pożar i/lub poważne obrażenia. Wszystkie ostrzeżenia i instrukcje należy zachować do przyszłego wykorzystania.	 44
CZ	VÝSTRAHA Přečtěte si veškerá bezpečnostní varování (včetně varování uvedených v dodaných bezpečnostních pokynech č. 6159931790) a veškeré další pokyny. Nedodržení varování a pokynů může mít za následek úraz elektrickým proudem, požár anebo vážný úraz. Ušchovejte veškeré texty varování a pokynů i pro budoucí potřebu.	 46
SK	VAROVANIE Prečítajte si všetky bezpečnostné varovania (vrátane varovaní, ktoré sa nachádzajú samostatne v bezpečnostných pokynoch č. 6159931790) a všetky pokyny. Nedodržanie varovaní a pokynov môže spôsobiť úder elektrickým prúdom, požiar a/alebo vážne zranenie. Všetky varovania a pokyny si odložte pre budúce nahliadnutie.	 48
SL	OPOZORILO Preberite vsa varnostna opozorila (tudi tista v ločenih varnostnih navodilih št: 6159931790) in navodila. Zaradi neupoštevanja opozoril in navodil lahko pride do električnega udara, požara in/ali hudih poškodb. Vsa opozorila in navodila shranite za morebitno poznejšo uporabo.	 50
LT	ISPĖJIMAS Perskaitykite visus saugos įspėjimus (įskaitant ir pateikiamus atskirose saugos instrukcijos Nr. 6159931790) bei visas instrukcijas. Jei nesilaikysite įspėjimų ir instrukcijų, gali kilti elektros smūgis, gaisras ir (arba) galimi rimti sužalojimai. Išsaugokite visus įspėjimus ir nurodymus, kad prireikus vėliau galėtumėte pasiskaityti.	 52
RU	ПРЕДУПРЕЖДЕНИЕ Прочитайте все предупреждения о безопасности (включая отдельно представленные указания по безопасности № 6159931790) и все инструкции. Несоблюдение данных предупреждений и инструкций может привести к поражению электрическим током, пожару и/или серьезной травме. Сохраните все предупреждения и инструкции для справки на будущее.	 54

Original instructions.

© Copyright 2024, Ets Georges Renault
44818 St Herblain, FR

All rights reserved. Any unauthorized use or copying of the contents or part thereof is prohibited. This applies in particular to trademarks, model denominations, part numbers and drawings. Use only authorized parts. Any damage or malfunction caused by the use of unauthorised parts is not covered by Warranty or Product Liability.

STATEMENT OF USE

Tool suitable for industrial environment only. It shall be used for tightening or loosening joints in wood, metal or plastic material. No other use will be permitted. For professional use only.

DATA

(See page 3).

Sound pressure level:

- < 70 dB(A) (EN 62841).
- Uncertainly: 3dB(A).

Vibration value:

- < 2.5 m/s² (EN 62841).

Declaration of noise and vibration emission

All values are current as of the date of this publication. For the latest information please visit desouttertools.com.

These declared values were obtained by laboratory type testing in accordance with the stated standards and are suitable for comparison with the declared values of other tools tested in accordance with the same standards. These declared values are not adequate for use in risk assessments and values measured in individual work places may be higher. The actual exposure values and risk of harm experienced by an individual user are unique and depend upon the way the user works, the workpiece and the workstation design, as well upon the exposure time and the physical condition of the user.

We, Desoutter, cannot be held liable for the consequences of using the declared values, instead of values reflecting the actual exposure, in an individual risk assessment in a work place situation over which we have no control.

This tool may cause hand-arm vibration syndrome if its use is not adequately managed. An EU guide to managing hand-arm vibration can be found at http://www.pneurop.eu/uploads/documents/pdf/PN3-02-NV_Declaration_info_sheet_0111.pdf

We recommend a programme of health surveillance to detect early symptoms which may relate to noise or vibration exposure, so that management procedures can be modified to help prevent future impairment.

REQUIREMENTS

These tools need to be used with controllers from Desoutter range.

OPERATING MODE

Before using the tool, make sure that it is in perfect working order and that the controller is programmed correctly, to reduce the risk of injury to the operator as a result of unexpected behaviour of the tool.

When integrating the nutrunner, the adequate protection is to be worn to avoid any risk of being dragged by the spindle.

Correctly size the baseplate of the nutrunner so that it can withstand the reaction torque (see page 9).

For correct operation of the sensor, the tool must be fastened on the baseplate using the appropriate flange. Make sure there is no other contact point of the tool housing with the baseplate (electric motor and gearbox).

MAINTENANCE INSTRUCTIONS

- Maintenance should be performed by qualified personnel only.
- Prior to any maintenance task: disconnect the tool.
- When disassembling / reassembling the tool, take the following precautions:
 - check that the controller is switched off,
 - disconnect the cable.
- To avoid damaging the tool during disassembly, use the recommended tools.
- When disassembling the handle, be careful not to pull on the electric wires that are connected to the motor.
- Any repair on the motor shall be carried out in our workshops.

When disposing of components, lubricants, etc ... ensure that the relevant safety procedures are carried out.

ASSEMBLING AND DISASSEMBLING

Proceed with assembly or disassembly of the tool by following the instructions in the technical manual available on:

<http://cadfiles.desouttertools.com> - Section Documentation.

According to Directive 2012/19/CE concerning Waste Electrical and Electronic Equipment (WEEE), this product must be recycled.

- Contact your Desoutter representative or consult the website "www.desouttertools.com" to find out where you can recycle this product.

DESOUTTER WARRANTY

1. This Desoutter product is warranted against defective workmanship or materials, for a maximum period of 12 months following the date of purchase from Desoutter or its agents, provided that its usage is limited to single shift operation throughout that period. If the usage rate exceeds that of single shift operation, the warranty period shall be reduced on a prorata basis.
2. If, during the warranty period, the product appears to be defective in workmanship or materials, it should be returned to Desoutter or its agents, together with a short description of the alleged defect. Desoutter shall, at its sole discretion, arrange to repair or replace free of charge such items as are deemed faulty by reason of defective workmanship or materials.
3. This warranty ceases to apply to products which have been abused, misused or modified, or which have been repaired using other than genuine Desoutter spare parts or by someone other than Desoutter or its authorized service agents.
4. Should Desoutter incur any expense correcting a defect resulting from abuse, misuse, accidental damage or unauthorized modification, they will require that such expense shall be defrayed in full.
5. Desoutter accepts no claim for labour or other expenditure made upon defective products.
6. Any direct, incidental or consequential damages whatsoever arising from any defect are expressly excluded.
7. This warranty is given in lieu of all other warranties, or conditions, expressed or implied, as to the quality, merchantability or fitness for any particular purpose.
8. No one, whether an agent, servant or employee of Desoutter, is authorized to add to or modify the terms of this limited warranty in any way.

Voltage Storage and use conditions

Storage temperature -20 °C to +70 °C (-4°F to +158°F)

Operating temperature 0 °C to 45 °C (32 °F to 113 °F)

Storage humidity 0-95 % RH (non-condensing)

Operating humidity 0-90 % RH (non-condensing)

Altitude up to 2000 m (6562 feet)

Usable in Pollution degree 2

environment

Indoor use only

Safety instructions for machine manufacturer

Desoutter should not be held responsible for any injury, accident or damage which may be the consequence of an incorrect installation, modification or start-up, or a use out of the intended use of Desoutter products, by the customer or a third party.

Operator protection

Desoutter should not be held responsible for any injury, accident or damage which may be the consequence of an incorrect installation, modification or start-up, or a use out of the intended use of Desoutter products, by the customer or a third party.

This product is aimed at being integrated as a component in a machine.

It is not a standalone nor a hand held tool, usable as it is.

It is under the responsibility of machine manufacturer to make sure that:

- Product is properly surrounded by guards to prevent from any contact at purpose or unintentionally on potential hot areas on this product.

Example of guard:

- If machine start requires operator to operate continuously trigger, the Quick Stop function of the controller is properly connected to this

trigger, in addition to the start device (digital input or network)

Tool cable installation

The tool cable should be placed to avoid a prolonged contact with the motor which is the hottest part of the tool.

Although the tool has a thermal protection which switches off the operation when it has reached a too high temperature, it is the responsibility of the user to configure the tool to operate within the established maximum temperatures. The integration of cables on the application must prevent a continuous contact of the spindle cable from the spindle motor capable to generate high temperatures.

The integration must respect the recommendations provided with the cables (included guideline 6159923380).

Installing the tool on the mounting plat

Ensure that the mounting plate thickness is consistent with that indicated in the chapter

WARNING Risk Of Electric Shock

Only qualified and trained operators should install, adjust or use this equipment

Fastening on the baseplate

Use only screws with quality class 12.9.

WARNING Risk Of Electric Shock

The frame where tools are clamped must be **earthed**.

Be sure that the motor is free of motion to enable torque measurement.

Warning: in case of installation in a wheelnut tightening machine, an additional mounting plate must be mounted next to the output drive.

Read before installing tool cables

Do not connect several extension cables together. Preferably use the longest length of extension cable and the shortest length of tool cable.

Instructions for cables of fixtured tools

The cable shall not apply any traction to the tool. Any traction force on the cable (even low intensity depending on the cable orientation) can generate a torque signal on the transducer.

Connecting the tool to the controller

MC, MCL, and MC of tools are designed to be connected to a CVI2 controller or CVI3 with a adaptor.

1. Connect the cable to the tool with help of "TOP" indication.
2. Connect the cable to the controller.

GENERAL POWER TOOL SAFETY WARNING

WARNING Read all safety warnings, instructions, illustrations and specifications provided with this power tool.

Failure to follow all instructions listed below may result in electric shock, fire, and/or serious injury.

Save all warnings and instructions for future reference.

The term "power tool" in the warnings refers to your mainsoperated (corded) power tool or battery operated (cordless)power tool.

WORK AREA SAFETY

- **Keep work area clean and well-lit.** Cluttered or dark areas invite accidents.
- **Do not operate power tools in explosive atmospheres, such as in the presence of flammable liquids, gases, or dust.** Power tools create sparks that may ignite the dust or fumes.
- **Keep children and bystanders away while operating a power tool.** Distractions can cause you to lose control.

ELECTRICAL SAFETY

- **Power tool plugs must match the outlet. Never modify the plug in any way. Do not use any adapter plugs with earthed (grounded) power tools.** Unmodified plugs and matching outlets will reduce risk of electricshock.
- **Avoid body contact with earthed or grounded surfaces,such as pipes, radiators, ranges, and refrigerators.** There is an increased risk of electric shock if your body is earthed or grounded.
- **Do not expose power tools to rain or wet conditions.** Water entering a power tool will increase the risk ofelectric shock.
- **Do not abuse the cord. Never use the cord for carrying, pulling or unplugging the power tool. Keep cord away from heat, oil, sharp edges or moving parts.** Damaged or entangled cords increase the risk of electric

shock.

- **When operating a power tool outdoors, use an extension cord suitable for outdoor use.** The use of a cord suitable for outdoor use reduces the risk of electric shock.
- **If operating a power tool in a damp location is unavoidable, use a residual current device (RCD) protected supply.** The use of an RCD reduces the risk of electric shock.

Personal safety

- **Stay alert, watch what you are doing, and use commonsense when operating a power tool. Do not use a power tool while you are tired or under the influence of drugs, alcohol, or medication.** A moment of inattention while operating power tools may result in serious personal injury.
- **Use personal protective equipment. Always wear eye protection.** Protective equipment such as dust mask, non-skid safety shoes, hard hat, or hearing protection used for appropriate conditions will reduce personal injuries.
- **Prevent unintentional starting. Ensure the switch is in the off-position before connecting to the power source and/or battery pack, picking up or carrying the tool.** Carrying power tools with your finger on the switch or energising power tools that have the switch on invites accidents.
- **Remove any adjusting key or wrench before turning the power tool on.** A wrench or a key left attached to a rotating part of the power tool may result in personal injury.
- **Do not overreach. Keep proper footing and balance at all times.** This enables better control of the power tool in unexpected situations. **Dress properly.**
- **Do not wear loose clothing or jewellery. Keep your hair and clothing away from moving parts.** Loose clothes, jewellery, or long hair can be caught in moving parts.
- **If devices are provided for the connection of dust extraction and collection facilities, ensure these are connected and properly used.** The use of dust collection can reduce dust-related hazards.
- **Do not let familiarity gained from frequent use of tools allow you to become complacent and ignore tool safety principles.** A careless action can cause severe injury within a fraction of a second.

Power tool use and care

- **Do not force the power tool. Use the correct power tool for your application.** The correct power tool will do the job better and safer at the rate for which it was designed.
- **Do not use the power tool if the switch does not turn it on and off.** Any power tool that cannot be controlled with the switch is dangerous and must be repaired.
- **Disconnect the plug from the power source and/or the battery pack, if detachable, from the power tool before making any adjustments, changing accessories, or storing power tools.** Such preventive safety measures reduce the risk of starting the power tool accidentally.
- **Store idle power tools out of the reach of children and do not allow persons unfamiliar with the power tool or these instructions to operate the power tool.** Power tools are dangerous in the hands of untrained users.
- **Maintain power tools and accessories. Check for misalignment or binding of moving parts, breakage of parts, and any other condition that may affect the power tool's operation. If damaged, have the power tool repaired before use.** Many accidents are caused by poorly maintained power tools.
- **Keep cutting tools sharp and clean.** Properly maintained cutting tools with sharp cutting edges are less likely to bind and are easier to control.

DECLARATION OF INCORPORATION

**UK
CA**

Doc No. 6159964460

Issue No. 02

This machine must not be put into service until the machinery, in which it is intended to be incorporated into or assembled with, has been declared in conformity with the provisions of the Supply of Machinery (Safety) Regulations 2008.

We :

Ets Georges Renault
38 rue Bobby Sands – BP 10273
44818 Saint Herblain – France

Technical file available from EU headquarter.

P.Roussy, R&D Manager
Ets Georges Renault
38 rue Bobby Sands – BP 10273

declare under our sole responsibility that the product(s):

FIXTURED ELECTRIC SPINDLE

Machine type(s) :

Model	P/N
MC35-10	6151651070
MC35-20	6151651080
MC38-10	6151651090
MC38-20	6151651100
MC51-10	6151651110
MC51-20	6151651120

Origin of the product : France

is in conformity with the following UK Regulations :

to “**Electromagnetic Compatibility Regulations 2016**”

to “**Supply of Machinery (Safety) Regulations 2008**”

to “**The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012**”

Designated standard(s) applied :

EN ISO 12100 :2010
EN 60204-1 :2006/A1 :2009
EN 61010-1 :2010
EN 61326-1 :2008 Class A/Industrial

NAME and POSITION of issuer :

Pascal ROUSSY
(R&D Manager)

Place & date : Saint-Herblain, 02/02/2022

UK Authorized Representative :

Air Compressors & Tools Ltd
Zodiac – Unit 4
Boundary way
Hemel Hempstead Industrial Estate
